DETAILED ACTION

Claims

1. The claims filed 23 June 2008 fail to correspond with the claims of 07 November 2007, e.g. Previously Presented claim 2 had been cancelled, Currently Amended claims 11 and 15 and Previously Presented claim 16 fail to correspond with claims 11, 15 and 16, respectively, and New claims 18 and 19 are inconsistent with claims 18-20.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 7-13, 15, 16, 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Mirsky, 6,226,735.

Mirsky's Fig. 1 shows a reconfigurable apparatus including at least one reconfigurable unit having a plurality of at least 4-bit processing elements and a plurality of at least 4-bit switch boxes (Fig. 9 shows and column 7, line 59 – column 8, line 49 describes a reconfigurable unit having a plurality of processing units, MCPEs and switch boxes, multiplexers illustrated in Fig. 2) and a configuration signal to enable the reconfigurable unit to form a functional unit, e.g. an adder(e.g. as shown in Fig. 9 and as described in column 7, lines 59—column 8, line 49 three 8-bit MCPEs may to configured to form a 24-bit adder).

Contrary to applicants' remarks, as detailed above, Mirsky does combine PEs to form different functional units.

Conclusion

4. This is a RCE of applicant's earlier Application No. 10/730,114. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
